

On Thursday July 27th the Pike County Chamber of Commerce held its monthly breakfast seminar at Jorgenson's at the Dimmick Inn. This month our sponsor was Kinder Morgan and our speaker was Allen Fore VP of Kinder Morgan. Mr. Fore filled the room with about 30 attendees who wanted to hear about the newest project that Kinder Morgan is doing in Pike County. We were thrilled to have Mr. Fore speak at our breakfast and provide our attendees with more information on their current project. The presentation caught the attention of the audience and a lot of great questions came about during the question and answer portion of the breakfast.

Kinder Morgan owns an interest in or operates one of the largest natural gas networks in North America and its pipelines transport over one-third of the natural gas consumed in the U.S. In Northeastern Pennsylvania, Kinder Morgan is currently investing over \$350 million in ongoing natural gas projects. Allen Fore, Vice President, Public Affairs will present on the national and regional benefits of this American energy infrastructure development, including the Orion Project, which is an approximately \$143 million natural gas project under construction here in Pike County.
