

LARGE METER PROGRAM

OnDemand Energy and ChamberChoice are pleased to announce the launch of the ChamberChoice Large Meter Program to all participating Pennsylvania ChamberChoice Chambers.

Through our partnership with ChamberChoice, we are pleased to offer an exclusive Large Meter Program to all participating Pennsylvania ChamberChoice Chambers. We are very encouraged by the initial response from both our Pilot Program Chambers and new Large Meter Members for arranging meetings with our OnDemand Energy Consultants. This program is designed to help the Local Chamber Executives introduce and engage the large industrial members to OnDemand Energy. The Large Meter Program is a great way to win significant non-dues revenues and to deliver OnDemand Energy's consultative services via the local Chambers of Commerce.

LARGE METER INCENTIVE PROGRAM

- ***Set an appointment with a 1 Million kWh Customer ODE will pay \$100***
- ***Every Executed contract ODE will pay \$400 per 1 million kWh and subsequently will continue to be paid on flow of the contract***

Two tremendous ways of earning non-dues revenue for the chamber!

As with any service business, the best approach to win new customers is through a warm referral. When these referrals are initiated by a trusted business partner like a local Chamber of Commerce Executive, the opportunity to win a new customer is greatly increased. Contact your OnDemand Energy Advisor to schedule a meeting with perspective large meter members.

Thank you again for your participation in the ChamberChoice Large Meter Program.
