

# NETWORKING EVENT AT ACTION BIKE AND OUTDOORS

Every month the PCCC holds an after hour networking event where our members and non-members come together to mingle with each other. Our March mixer was held at Action Bike and Outdoors where we had over 30 attendees at what we call a very successful evening at the bike shop. Bike Shop owner TC Crawford opened his doors to the business community, shared a few words with the attendees about what he has to offer at the bike shop and what kind of events the bike shop holds throughout the year. A networking event is a great opportunity to showcase your business and to get new people to walk into your business. A networking event also allows you to meet and connect with folks in the business community. We always thank our members for hosting a networking event and we also thank everyone who always donates a door prize to the event.
